

ada ez

WIRE FREE DOOR OPENER

The ADA EZ wire free door opener provides easy access into your facility for people with disabilities. It is an extreme duty, low energy opener designed for institutional, high traffic manual opening applications that occasionally require automatic operation. A regenerative drive system charges an onboard battery pack eliminating the need for electrical power. Most customers comment on the unit's small size, ease of installation and use. ADA EZ has been designed to work on doors up to 48" wide and 250lbs. Included are two wireless push button transmitters making the device a complete ADA door opener solution in one box.

Some additional features include:

- ✓ *No Electrical Power Required*
- ✓ *Auto Tune – Adjusts to ANSI*
- ✓ *On-Board Door Control*
- ✓ *Fast and Simple Installation*
- ✓ *Door Mounted – No Header*
- ✓ *Adjustable Opening/Closing Force*
- ✓ *Architectural Finishes*
- ✓ *No Open Stop Required*
- ✓ *Shock Absorbing Door Arm*
- ✓ *Brushless DC Motor*
- ✓ *Tested to 1,000,000 Automatic Cycles*

The ADA EZ series door opener is shipped with: brushless DC motor/gearbox, operator mounting bracket, door arm assembly, 3 anodized finish covers, 2 stainless steel wireless pushbutton transmitters, hardware pack, and ANSI signage.
